## About Artel

Artel have been manufacturing pellet stoves for over 40 years offering innovative solutions for domestic & commercial heating.

This collection features **eco design** stoves, friendlier for the environment than traditional open fires or wood burning stoves, with contemporary minimalist designs to suit a modern home.

*This is the future of home heating.*

## Artel Stove Features

### **Magic Glass**

Tempered glass that only shows the fuel chamber when the fire is lit.

DOUBLE DOOR

### **Double Door**

Keeping the combustion chamber door behind a stylish front door ensures the overall look of the stove is streamlined.

### **Top & Rear Flue Outlet**

The choice to fit the stove with a top or rear flue outlet which will enable you to save space when installing.

## **ECO DESIGN 2022**

Regulations introduced by the European Union to ensure all stoves manufactured from 2022 onwards have a significant reduction in emissions produced by them. Ultimately all Artel stoves are less damaging to the environment than traditional open fires.

All stoves featured in this brochure are **ECO DESIGN 2022**

### Petit 6

The Petit pellet stove packs a 6kW nominal heat output and large viewing screen into a contemporary design, available in a range of colours. Very compact in design this stove is perfect if you have limited space to install a stove.

#### Features

- Large glass front panel to view the fire
- Compact to suit small spaces
- Cast iron brazier
- Steel combustion chamber
- Rear flue outlet only

#### Specifications

- 6kW nominal heat output
- 93% efficiency
- 80mm flue outlet
- W426 x D487 x H770mm

### Mini 5.S

A compact stove, minimalist in design, the Mini 5.S is perfect for a small space with the focus on using as little space as possible which is emphasised by the possibility of a top or rear flue outlet.

#### Features

- Top & rear flue outlet
- Side opening and reduced depth
- Cast iron brazier
- Steel combustion chamber
- LCD Display
- Magic Glass front panel
- Stylish wooden feet

#### Specifications

- 4kW nominal heat output
- 90% efficiency
- 80mm flue outlet
- W470 x D280 x H880mm

### Roma 8

The highly efficient Roma 8 comes with a white, black or bordeaux finish so you can choose the right model to suit your home decor. You can expect a brilliant heat output of over 6kW from the Roma 8, and easy controls with the included remote.

#### Features

- Large glass front panel to view the fire
- Wi-Fi Optional
- Rear flue outlet only (80mm)
- Available in a range of colours

#### Specifications

- 6kW nominal heat output
- 92% efficiency
- 80mm flue outlet
- W433 x D473 x H922mm

### Cayenne 10

This eco design 2022 stove has a 91% efficiency rating and a heat output of 8kW. The minimalist design is incredibly modern, ensuring the Cayenne will be a focal point in your home in your choice of a grey, bordeaux or white finish.

#### Features

- Top & rear flue outlet
- Wi-Fi Optional
- Cast iron brazier
- Steel combustion chamber
- Available in a range of colours

#### Specifications

- 8kW nominal heat output
- 91% efficiency
- 80mm flue outlet
- W440 x D450 x H960mm

## Futura 9

The Futura 9 has a huge 16kg tank capacity with the option of a top smoke outlet to save on space. A radio remote controls the stove from up to 60m away, and Artel have ensured that while running the stove is silent.

### Features

- Double door design
- Top & rear flue outlet
- Cast iron brazier
- Steel combustion chamber
- Silent while in use
- Remote included
- Available in a range of colours

### Specifications

- 9kW nominal heat output
- 95% efficiency
- 80mm flue outlet
- W475 x D480 x H940mm

## Subtile XS6

The Subtile XS6 is a modern stove with a very narrow depth of 250mm that enables the stove to fit into even the smallest of rooms. With an efficiency of 95% the Subtile is a highly efficient way to heat your home.

### Features

- Top or rear flue outlet
- Wi-Fi Optional
- Reduced depth
- Cast iron brazier
- Steel Combustion chamber
- Side control panel
- Available in a range of colours

### Specifications

- 6kW nominal heat output
- 95% efficiency
- 80mm flue outlet
- W885 x D250 x H890mm

### Redonda 12C

With a cast iron brazier and steel combustion chamber the Redonda 12C is a robust stove that can be ducted to heat the room the stove is in and one other evenly. With its curved design this stove is ideal to be placed in the corner of a room.

#### Features

- Cast Iron Brazier
- Steel Combustion Chamber
- Ducted to heat 2 rooms evenly
- Wi-Fi Optional
- LCD display
- Rear flue outlet only (80mm)
